With 6,300 employees in research, teaching and administration and its unique profile, TU Dortmund University shapes prospects for the future: the interaction between engineering and natural sciences as well as social and cultural studies drives both technological innovations and progress in knowledge and methodology. It is not only the roughly 34,300 students who benefit from this.

The Faculty of Rehabilitation Sciences is one of the largest research and teaching institutions in Europe addressing the inclusion of people with disabilities, impairments and social disadvantages. It has established three research clusters: “Work and Inclusion”, “Education, School, Inclusion”, “Technology, Inclusion, Participation”. As a result of numerous university and non-university collaborations, e.g. with the Federal Institute for Occupational Safety and Health (BAuA) and the Leibniz Research Centre for Working Environment and Human Factors (IfADo) the Faculty is embedded in a scientifically attractive, interdisciplinary research environment.

The Faculty of Rehabilitation Sciences at TU Dortmund University is seeking to fill the position of a Professor (W3) in “Inclusion and Work: Digitization” commencing as soon as possible. The successful candidate will represent the field of “Inclusion and Work: Digitization” in research and teaching.

We are seeking a personality with an international reputation, evidenced by an excellent doctorate and publications in recognised (also peer-reviewed) organs, in one or more of the following areas:

- Investigation and development of concepts on the changes in work and inclusion through digital technology
- Investigation and development of concepts on the potential of digitization for support and empowerment in human centered workplaces
- Investigation on opportunities and risks of the digitization of work for people with disabilities and functional restrictions and development of concepts
- Management of design and adaptation processes for inclusive digital work in organisations

The candidate is expected to have a research profile that demonstrates a clearly recognizable connection to the rehabilitation sciences and the ability to link occupational science aspects of digitization to relevant issues in the rehabilitation sciences.

Experience in the successful acquisition of third-party funds is expected.

Applicants should be willing to actively participate in the faculty’s research cluster “Work and Inclusion” and contribute to interdisciplinary collaborative research projects within and outside TU Dortmund, particularly with the BAuA.

An appropriate contribution to the faculty’s curriculum is expected.

The successful candidate will possess social and leadership skills and be willing to be involved in academic self-governance.

The recruitment requirements are based on § 36 and § 37 HG NRW (law governing universities in NRW).

TU Dortmund University strives to increase the number of women in academic research and teaching and therefore explicitly encourages women to apply.

TU Dortmund University is an equal opportunity employer and gives preference to candidates with disabilities if equally qualified.

TU Dortmund University supports the compatibility of work and family life and promotes gender equality in science.

Please send your application, including the usual documents (CV, certificates, list of publications etc.) preferably by e-mail (in one pdf-file) to the following address by 05.05.2020
